

Coding Exercise 1 – Set up - by next session

- o Find your pair – Fellows to work in pairs that are professionally mixed and geographically close. Many of you identified your pairs at the module but if you are unclear who you are working with then please contact Vikki (v.pearce@bsms.ac.uk) who will match
- o Read the Russell BMJ Open paper – Vikki will provide
- o Fix a time to meet with your pair in person (or on the phone)
- o Discuss the paper
- o Discuss the content of the coding exercise
 - o How do you do it?
- o How you might implement , considering:
 - o Barriers to implementation
 - o Differences in systems and coding
- o Identify the larger practice in your pair
 - o Plan how and when you will complete the exercise after the next session
 - o What are the systems what will you need to do
- o Identify four contacts in four other practices in your CCG who you will approach to complete the exercise after you have completed yours
 - o If there are other pairs in your CCG liaise to make sure that there are no overlaps
- o Plan how you will engage them in this task
 - o Strategy
 - o Who will do what
 - o How will you help them/convince them
- o Obtain information on all five practices, send details to Vikki before the next session (deadline 4th April)
 - o Practise size, Number over 65
 - o Name, address, CCG
