

# Paediatric Nurses 'Check in Session'

The national group of Paediatric Critical Care Operational Delivery Networks have come together to support **all** nurses who work within paediatrics during this challenging time. There are plans to run sessions for all support staff too.

Really nice to chat and know that others are feeling the same

Reassuring to hear that other unit and people are going through similar experiences

100% of people said they would attend again!

To join this session follow the QR code or you can dial in using 02034815237 98492083367# 018095# . All managers are also being sent the link

## Every Thursday 3pm-4pm

Facilitated by
