Overall Feedback

- ◆ Brilliant day. Great to see so much improvement from last year. Some great work to be proud of
- ◆ Great to hear what is going on at other units. Perhaps going forward-more joined up projects across the region. Maybe the LLS's will help? I feel there is so much collective good work going on but find it is all similar

- ◆ Useful day-clear that there is a huge amount of work going on in different areas and so important that all the work is shared openly and widely. Venue was very hot!!
