## Content

### Nurse Led Discharge

- Great idea however needed to be a little more clearer in how to achieve it
- Our hospital is a level 3 with very complex babies so I feel that it would be a huge responsibility for nurses to be responsible for the send
- We do Nurse led discharges at our hospital. Interesting to hear how a nursery nurse can lead
- Would find this difficult to introduce in our level 3 unit due to increase workload and always a change in allocation
- Useful information as our unit is thinking of putting something similar in place for us as nursery nurses to implement
- The idea is good although the presentation I found a little unclear as to what it was they were doing different until the end
- Excellent
- More detailed information and more discussion
- The step by step guide would really help
- Works really well on unit

### Responsive feeding

- Interesting and a good recap
- Good presentation
- Paula was so passionate, really enjoyed and a great refresher
- Loved this- not at all fluffy!
- Easy to listen to
- Lovely speaker and gave me a way of bringing back basics to helping parents form bonds
- Very informative
- Excellent- reminding us of several points, also not forgetting bottle feeding

### Managing bereavement in the Neonatal setting

- Well-presented and good information. Very approachable too
- The speakers were great and I'm amazed at the work they have done and all of the hard work they put into this charity. They should be very proud as a family
- Very good
- These guys are amazing! They shared their experience which will continue to help us improve the care we give. Thank you!
- Lovely presentation and excellent knowledge, made me think how our unit could support bereaved families better
- Really great work and interesting. We don't experience a huge amount of fatalities but with transitional care coming in this will be very useful when working with maternity more

### Infant Massage

- Something which would be useful to use in our unit. So good to see how it works
- Something very useful to teach parents to help them bond with their baby
- Would like to carry this idea to transitional care, will be talking to managers
- I can see the benefits
- Really good explanation of baby massage and benefits to baby and care giver
- Amazing speaker and has made it clear how important this could be for all babies parents
- Hoping to implement this on our unit
- Very interesting, would love to do this
- Very exciting! Hoping to eventually bring this to the unit

### Neonatal Alert, Trigger and Track (NATT)

- A little monotone in presentation
- Helpful to understand more, however I just hope we are given in house guidance
- Useful information to have and to know how to use if you have enough QIS staff on duty
- Very important as it's a regional new practice. Presentation did not reflect importance
- Gained some knowledge of how to use NATT. Although currently not in place on unit, may be difficult as not many QIS on shift

### Maternal Mental Health

- Well explained
- Well-presented and great information
- Really useful information. Thank you
- Very interesting. Looking forward to re-reading the slides when we have them sent
- A little quiet
- Brought back to basics the signs to look out for and ways to help parents more especially the dads

# Lectures

## Presentation

### Nurse Led Discharge

- ◇ As a unit, nursery nurses do practically all of the discharge with the exception of sending letters. We've never had issues with them being completed
- ◇ Interesting to hear how this came about but feel this took up a large part of the content. Checklist? What to include, shame this wasn't in the presentation
- ◇ More information on how to do nurse led discharges would have been helpful. Would of liked a copy of the checklist
- ◇ Very interesting, will definitely update our management team
- ◇ Way forward for smooth discharges
- ◇ Well explained

### Infant Massage

- ◇ It would have been nice for some techniques to be demonstrated
- ◇ I'm trained so will be talking to ward manager when next on shift
- ◇ Was quite quick but was explained well
- ◇ Great for parents
- ◇ Great idea! Just great!
- ◇ We currently don't carry out infant massage on our unit so would be something to think of in the future for parents
- ◇ Something which I believe will help our babies. Unfortunately denied training because of

### Responsive Feeding

- ◇ Very interesting. Would like Paula to come to our unit study days
- ◇ I really enjoyed this talk. Paula's passion! I wish she could be cloned and put in every unit. Can Paula come to do a talk during our study day please
- ◇ Very good presentation
- ◇ Being new to the role this helped me to understand hunger cues and the importance of skin to skin

### Neonatal Alert, Trigger and Track (NATT)

- ◇ Very good information but could be improved by speaker not reading from slides
- ◇ Could be more interesting-it was just read from the PowerPoint
- ◇ Dull! The speaker just read the PowerPoint! I could have done that!
- ◇ Think this will be great to implement on our unit
- ◇ Useful to see
- ◇ Was just reading through long written slides
- ◇ A lot to take in over the slides

### Managing bereavement in the Neonatal setting

- ◇ Very inspiring
- ◇ Excellent. Such a great thing to be doing
- ◇ Amazing couple and family to do what they do
- ◇ Heart-warming story. Approachable people, focused, made you leave wanting to do more and help within your unit
- ◇ The personal and emotional content really helped me to understand that as a nursery nurse making a family experience positive (as it can be) paramount. I also think the resources are amazing
- ◇ Amazing work
- ◇ Good to know there are tools to help families in this kind of situation and how to get them
- ◇ Really emotional and helpful

### Maternal Mental Health

- ◇ Informative and insightful. I look forward to seeing the slides again
- ◇ Great information
- ◇ Useful information and advice with supporting parents
- ◇ Helpful points for supporting mum's and what to look for
- ◇ Linking slides to scenarios was helpful
- ◇ A useful session. I liked the diary sheet idea for parents to protect skin to skin time
- ◇ Sometimes very overlooked, parents are expected to just cope "get on with it" very interesting
- ◇ Lots of information to take away

# Overall Feedback

- \* A great day, well organised and some positive things to link back to my own setting
- \* Thank you, a great mix of learning opportunities
- \* Enjoyed the day on the whole, some interesting subjects. Pity about some noise at 'the back' towards the end of the day!!!
- \* Really good day, very insightful. Provided ideas for own unit and questions to ask manager
- \* A lovely varied training day. Taking away lots of useful information and ideas to think about
- \* Thank you
- \* Good variety of content
- \* Brilliant study day, definitely worth the journey. Some great ideas to take back to our unit
- \* All talks were very good subjects to cover. Very understanding of time of arrival due to traffic. Lunch a nice touch and helpful for all day course
- \* A well planned day, varied content, good facilities, comfortable room and nice lunch. Thank you
- \* Thoroughly enjoyed the course. Thank you

- \* Really enjoy this study day, very informative, I love learning and developing. For next year maybe NAS scoring. Muffins Excellent!
- \* Very interesting. Really enjoyed hearing about baby massage and how effective it is. Very emotional bereavement talk. Good to hear how other hospitals do things
- \* Very interesting day. Got a bit lost trying to find the Frank Lee Centre
- \* Overall interesting course but feel that maybe some more interaction would be beneficial as it was mainly being talked to

- \* More interactive parts to the day to help you stay focused. Very interesting course covering a variety of different topics. Would have been nice to get some hand outs. Refreshments very good
- \* Many thanks for providing the opportunity for nursery nurses to develop our role and the new ideas to feedback

- \* Good information stands
- \* Wasn't informed lunch was included- what a bonus!
- \* Didn't receive any information and the Frank Lee Centre is not well signposted and took us a while to find it. The day was organised with information I can take back to my setting. Very impressed with the bereavement talk and would like more information on a bereavement room
- \* Draegar was a very good talk on an important topic
- \* Thank you

- \* Really enjoyed today and have learnt a lot. Look forward to next year!
- \* A great day. Lots of new information and knowledge
- \* Good information stands
