Health Living Pharmacy Awards 2010

St James' Hospital
Thursday 4 November

FOREVERYBODY

www.pompey-pharmacy.info

Welcome

I am delighted to welcome you to the first ever Healthy Living Pharmacy awards. I have been very much looking forward to this event as a chance to congratulate all of our Healthy Living Pharmacies and aspiring Healthy Living Pharmacies on their achievements in 2010.

Regardless of whether you win an award or collect a certificate this evening you should all feel immensely proud of the changes you have helped deliver through Healthy Living Pharmacy.

We've seen some fantastic results and some excellent examples of how your dedication is making a real difference to the health and wellbeing of local people. You are also taking on the important role of raising the profile of Healthy Living Pharmacy in the community, amongst health professionals and on the national agenda.

2011 looks set to be a challenging and uncertain year for the NHS, but it is with great excitement that I anticipate how Healthy Living Pharmacy in Portsmouth will continue to build on this year's triumphs and prove what we can offer to improve wellbeing and reduce health inequalities in our city.

Healthy Living Pharmacy has a clear evidence based approach and seeks to add to that evidence base. It offers clear value for money, improved productivity and much better opportunities for a wider range of people to benefit from interventions.

I would like to wish everyone who has entered an award the best of luck, and I hope that this is an enjoyable evening for everybody.

Dr Paul Edmondson-Jones
Director of Public Health and Primary Care

Alison Harfield
Elaine Jenkins

Presented by Dr Paul Edmondson-Jones, Director of Public Health

Healthy Living Pharmacy of the Year

Presented by Deputy Lord Mayor Of Portsmouth Cllr Cheryl Buggy

Awards

The Healthy Living Pharmacy Awards will be presented across five categories. Every Healthy Living Pharmacy and aspiring Healthy Living Pharmacy was invited to enter the awards as many times as they wished between June and September 2010.

Working With Others

This pharmacy is a champion of integration across the NHS. They have developed or maintained strong partnerships with general practice and/or other health professionals. They are proactive, communicate appropriately, and so deliver extra benefits to the patient.

"The pharmacy feels very strongly about maintaining such links with local agencies and continues to offer a much better service as a result" Quote from finalist

Smoke Free Champion

In conjunction with quit data we looked for innovation and improvement in stop smoking services to identify this champion. They successfully get smokers on board and through the quit process within the pharmacy, and keep ex-smokers on track.

"We find this works really well with encouraging people to talk about smoking" Quote from finalist

Health Trainer Champion of the Year

This is a Health Trainer Champion who has put their training into practice and made a real difference to patients. They have involved the team, created engaging displays and gone the extra mile to deliver on public health and wellbeing. Entrants shared their experiences, the results in the pharmacy and their skills have grown.

"This campaign has given the staff within the team more confidence and shown them that they have the ability to deliver"

Quote from finalist

Healthy Living Pharmacy Leader of the Year

They have been a guide to their team through the change of ethos to Healthy Living Pharmacy. As well as being an efficient manager they bring leadership to life with their personal qualities. They deliver on the challenge and how to motivate others, and have extended their leadership beyond their own pharmacy to lead in the community and engage other pharmacies.

"She now has a well motivated team and works to get the best out of everyone" Quote from finalist

Healthy Living Pharmacy of the Year

A shining example of what a Healthy Living Pharmacy is all about. They demonstrate the public health and wellbeing ethos. Their customers engage with HLP. They have boosted the role their pharmacy plays in the health of the local community. This category considered all the information entered into other categories as well as the specific evidence and case studies provided.

"I would like to thank you for the service your team provides"
Quote from patient
