

**Session One: Integrated Care Developments in Dermatology**

- Does our locality have a strategy for optimising early detection and referral of suspicious skin lesions?
- Does our locality have well defined and accessible pathways for managing chronic skin conditions and escalating people along the pathway to achieve optimal control?
- How can we work together better across our locality to understand each other's local policies and devise best practice approaches for all?

**Key discussion points:**

- 1) Strategy for optimising early detection of suspicious skin lesions.
- 2) Managing chronic skin conditions
  - Prompt to GP to regularly review management plan (WAP)
- 3) There is a lack of communication between sub areas within Notts. Dermatology champions needed.

**Session Two: Examples of Innovative Practice from across the East Midlands region**

- What ideas can we adapt from today to transform services locally?
- Who do we need to involve in developing transformed and sustainable dermatology services across our region?
- How would we like to see this network in the future?

**Key discussion points:**

- 1) Good ideas: WAP in clinical record
  - Simple portal for all Derm referrals via GP led triage
- 2) Practice nurse training in chronic skin diseases management
  - Role of community pharmacist
