Aims

To bring decision makers together in order to:

- Have a clearer appreciation of the key issues
- Be better informed
- Enable solutions through integrated, collaborative working
- Develop a forum for communication between individuals and organisations
- Share ideas and experiences
- Share patient experiences, innovation, data, clinical and technological advances

Outcomes

- Each of us leaves today with more knowledge and information than we arrived with
- A sustainable and relevant model for effective communication within and outside the integrated care system

Objectives

- Know what the data says about your outcomes and costs vs comparators, then aim high in your plans to improve
- Learn from each other, network tirelessly, make new friends
- Steal then adapt the best ideas
- Focus on and aim for recovery – what does that look like for patients?
- Provide parity of esteem in every part of the patient's journey
- Really make sure we get value throughout - sweat community assets as part of your strategy, engage all available resources not just NHS

Table Facilitators

If your table has a “facilitator required” sign, please do appoint this role amongst yourselves to assist the smooth running of the discussions and maximise the effectiveness of your time
