NSF New Responsive Services  
*Policy Implementation Guide* Home  
Treatment Assertive Outreach  
Early Intervention *Fidelity to the  
Model* New ways of working  
Rigidity No Flexibility Secondary  
Care Focus Must be Done  
Working Age  
Prescriptive Targets Block Contract

# Present 2011

- 5 CCG's – Developing Clinical Engagement
- National Contract - Cost and Volume arrangement ...validation...+/- performance
- CQUIN (PbR clustering, Length of Stay...)
- Locked Rehab Contract (Recovery Star, LoS)
- EMSCG – service transition
- QIPP – out of area, activity, review of rehabilitation services
- Individual Packages of Care
- Reduced commissioning capacity
- Biggest challenge.....

# Achieving Financial Balance..

# Future.....

- Payment by Results implementation in 12/13
- Any Qualified Provider - IAPT
- OAT's..... and.....outcome of LD CQC service reviews?
- NCB – liaison/ interface with locally commissioned services
- QIPP – OATs, LoS, DtOC.....

# Clinically Driven Commissioning

## Issues . . . . .

- Myth Busting...better understanding of mental health services
- Outcomes ...are interventions making a difference?
- Are interventions timely and value for money?
- Could improved physical interventions deliver significant savings and improved outcomes?
- Engaging Primary and Secondary Care clinicians to agree commissioning intentions
- Vision....Partnership in achieving QIPP?

Any Questions
