

## Facilitator Guide

**STP Table:** South Yorkshire and Bassetlaw STP

**Facilitator Name:**

**Please list the group contributors:**

In order to utilise the discussion periods effectively please do volunteer to facilitate your table. Delegates are seated by STP region, on tables of circa 6-8 people from a mix of organisations and backgrounds.

This will involve:

- Introduce yourself briefly and get everyone around the table to introduce themselves
- Ask for a volunteer or nominate someone to present the findings during the feedback session
- Keep a record of the table discussions and any key themes emerging on the flip chart/notes form provided (to be collected by Clara at the end of the meeting) These are kept afterwards in order for us to publish the outcomes from the discussion.
- Remind people of the key objectives of the session if necessary
- Encourage everyone to participate, enable people who have not had opportunity to speak by asking them what they think e.g. quiet individuals
- Keep the conversation flowing by asking key questions or reflecting back to people what they have said
- A 5 minute time remaining warning will be given as a prompt

We appreciate your support and contribution to this network meeting.

**Paul Midgley**  
Director of NHS Insight, Wilmington Healthcare

**Director of NHS Insight, Wilmington Healthcare**

**Adult ADHD** – To what extent do we already have a fully commissioned Adult ADHD service? How do we develop a robust, sustainable service for adults with ADHD in our STP area? How can we use local patients' perspectives to improve our services? Who else do we need involved to drive forward a focused response to this problem? Would we be prepared to be involved in an EM focus group on adult ADHD service development?

**Key observations**

**Key action points:**

--

## Facilitator Guide

**STP Table:** Durham, Darlington, Tees, Hambleton, Richmondshire and Whitby STP (table 2)

**Facilitator Name:**

**Please list the group contributors:**

Kelley Wood,  
Julie Mason - j.mason1@nhs.net  
Bill Scott - Insp from NYP (North Yorks Police)  
Sam Durrant - from NYP.

In order to utilise the discussion periods effectively please do volunteer to facilitate your table. Delegates are seated by STP region, on tables of circa 6-8 people from a mix of organisations and backgrounds.

This will involve:

- Introduce yourself briefly and get everyone around the table to introduce themselves
- Ask for a volunteer or nominate someone to present the findings during the feedback session

How can we use local patients' perspectives to improve our services? Who else do we need involved to drive forward a focused response to this problem? Would we be prepared to be involved in an EM focus group on adult ADHD service development?

**Key observations**

① <sup>Tew</sup> Tees has a commissioned ADHD service  
CMHT's manage shared care arrangements  
adults stabilised on meds go to team.

CMHT also has medics who will re initiate  
meds if adult has diagnosis ADHD  
& has been on meds within last 2 years.  
High rates OVA

② There is a robust service - but its resources  
are limited -  
Patient "voice" - education clinicians / psychiatrist  
Triangle of care - peer support worker

③ GPs - not all & > ~~pa~~ adults <sup>ADHD</sup> should need  
to be in a secondary care services (shared care)  
shared care revision.

**Key observations**

NTW: Diagnosis & prescribing system – still isolated from  
↳ integration has not occurred. Co-morbid conditions.

integrate the management of ADHD into general  
psychiatry

general psychiatry @T.

involve ADHD organisations / service  
ADHD peer support networks

up to focus  
group

**Key action points:**

Commit  
"EIP" model? inter-episode diagnostic & treatment  
phase at tertiary service for 'complex' 'risky'  
'difficult' to treat

## Facilitator Guide

Would we be prepared to be involved in an EM focus group on adult ADHD service development?

**Key observations**

① Lots of referral + assessment services  
⇒ but treatment not so much. Private ESSO.

Base of contention does it exist.

② Training for staff in other areas. <sup>ASSESSMENT</sup> INTERVENTIONS  
? repetitive certain checks? prisons

to Engagement = trips to men with <sup>custodial setting</sup>

③ Feedback = really useful. Other health professionals

ENGAGEMENT || SERVICES || BP = ? training?  
TREATMENT || BOTTOM ↑ DP ↓ || POLITICIANS + MP'S

④ VOS. LAURA SON, NICK DYSON, SARAH BOUL  
TRACEY RICHARDSON.

**Key action points:**

- Training
- Feedback
- Pt + carer involvement
- Support ⇒ national, local.
