Aims

Improve communication at local and regional level by bringing decision makers together to:

- Have a clearer appreciation of the key issues
- Be better informed
- Develop solutions through collaborative working
- Create new relationships and expanded networks
- Share ideas and experiences
- Share patient experiences, innovation, data, clinical and technological advances

Desired outcomes:

- Each of us leaves today better informed
- A sustainable and relevant platform for effective communication within and outside our STP and wider Midlands region
- Access to materials from the meeting including local actions agreed during table-based, topic-based discussions

Objectives

- Know what the data says about your outcomes and costs vs comparators, then aim high in your plans to improve
- Learn from each other, network tirelessly, make new friends
- Steal then adapt the best ideas
- Focus on and aim for full functioning – what does that look like for patients?
- Provide parity of esteem in every part of the patient’s journey think about mental health impact
- Really make sure we get value throughout - sweat community assets as part of your strategy, engage all available resources not just NHS
- No ‘them and us’ – we will all rely on one STP/ICS programme budget for treatment of Rheumatic and MSK Disorders
