The RCGP-Nuffield Trust General Practice at Scale programme presents:

Looking Forward To An At Scale Future

Hilton Newcastle, Bottle Bank, Gateshead, Newcastle, NE8 2AR

4th October 2017, 12:30-16:00

[Sign-up for this free half-day event](#) in Newcastle to share experiences and successes when working at scale.

This event aims to bring people together to share individual and organisational experiences, including successes and lessons learned, and look to the future to discuss how bigger general practice organisations influences the wider system. There will be a chance to hear from different at scale organisational leads who will present a case study-style overview of their experiences, which will cover quality, efficiencies and their approach to new models of care. There will also be a Q&A session, a chance to network and share individual experiences, hear more from system and profession perspectives, and learn about what the RCGP, Nuffield Trust and the BMA are doing to support people and organisations working at scale. GPs and primary care staff with an interest in working at scale are encouraged to attend even if they're not based in the North East of England.

Agenda

Time	Session
12:30-13:00	Registration <i>Lunch and refreshment will be provided on arrival</i>
13:00-13:15	Welcome and introduction <i>Dr Mike Holmes, GP at Scale programme clinical champion sets the context and aims of the day</i>
