**View the Scientific Programme online**

The Scientific Programme is now available. The programme has been designed to propel you towards worldwide delivery of the highest quality of care for babies and their families. Learn from a highly regarded selection of keynotes and invited speakers from around the world.

**Keynote Speakers and their sessions include:**

- Improving healthcare quality, reliability and patient outcomes with EBP and ARCC
- Oxygen saturation monitoring in the delivery room, a help or just more numbers to worry about
- Changing the Paradigm for Neonatal Care
- Families’ experiences when caring for a child born preterm

**Furthermore, a series of pre-conference workshops will explore the following pertinent topics:**

- **Workshop 1**: aEEG and EEG in the NICU
- **Workshop 2**: Cochrane Systematic Reviews
- **Workshop 3**: 02 monitoring at resuscitation: Practical tips for using oxygen saturation monitoring in the delivery room and how to use the reference range
- **Workshop 4**: Pain management in infants – the evidence and utilization in clinical practice
