

Multi-disciplinary Ventilation Study Day Programme

16th April 2013

Walsall Manor Learning and Conference Centre,, Route 301,

Walsall Manor Hospital, Moat Road, Walsall, WS2 9PS

AIM

The aim of the ventilation study day is to enhance the knowledge base around innovative ventilation techniques and management pertinent to the multidisciplinary team.

OBJECTIVES

- To enhance and increase knowledge of lung physiology and development
- To gain an understanding of conventional ventilation and innovative techniques now available.
- To appreciate how these maybe applied to the neonatal intensive care setting.
- To develop an awareness of the need to consider holistic care when caring for the ventilated baby

Teaching Methods

Plenary sessions will be utilised throughout the programme.
In addition there are three workshops
