Useful pointer to up to date research.  
 Interesting research and how change can be so slow. Saw this practice 15 years ago but with nothing to support it. Glad things have improved.  
 Found the talk at the end of the event more useful than the presentation itself.  
 Lovely lady, too statistical though.

Sucrose presentation. Although informative was presented by a salesman for sucrose.  
 Use of sucrose.

 Workshops 4. No improvements, workshops were effective to back-up theory.  
 Missed parents experiences – can't be helped but would have been valuable on this area. Workshops, particularly enjoyed roll play of nappy change and handling.
