

QIPP Group Objectives 2010/12

Objective 1: QUALITY - To promote and enhance Quality in Neonatal (perinatal) care across the Network				
Work Programme	Measurement Used	Lead	Review Date	Progress Review March 2011
<p>1. To implement and assess the adherence to NICE Quality Standards</p>	<ul style="list-style-type: none"> a. Circulation of the NICE Quality Standards to all relevant professionals across the Network b. Develop relevant audit programme for collaborative and comparative audit of these NICE Standards c. Presentation of the audit findings d. Advise the SSBC Newborn Network Board of any shortfalls in meeting the Quality standards across the Network 			
<p>2. To work with the WM QI and the other newborn networks in the WM to develop and monitor WM neonatal clinical indicators</p>	<ul style="list-style-type: none"> a. Develop agreed WM neonatal clinical indicators b. Agree and implement a process with the WMQI to monitor and report on the agreed neonatal clinical indicators 			

Objective 2: INNOVATION - To increase participation in neonatal research studies

Work Programme	Measurement Used	Lead	Review Date	
<p>1. To work with the West Midlands (North) MCRN and non-Medicines for research in Children teams to enhance the profile of, and participation in, neonatal research.</p>	<ul style="list-style-type: none"> a. Establish liaison with MCRN and non-MCRN lead (Prof Warren Lenny) b. Organisation of the Quad Networks' research Study Day with participation of key MCRN and non-medicines Research Leads c. To collate information about GCP training status of senior neonatal healthcare professionals (Consultants, SAS, Senior nurses and ANNPs), and liaise with the MCRN staff (Dr Sam Hayton) to organise a GCP training day for the Network staff 			
<p>2. Work collaboratively with Research leads in the sister neonatal Networks in West Midlands to develop relevant research projects</p>	<ul style="list-style-type: none"> a. Liaise with Dr Andy Ewer (WMSNN) and Dr Praksh Satodia (CNN) to develop a Neonatal Research Group across the 3 neonatal Networks b. Develop relevant and doable research projects 			
<p>3. BOOST-II UK</p>	<ul style="list-style-type: none"> a. Ensure recruitment into the trial, and completion of the data collection b. Help with 2-year assessment through the Network's programme of Bayley's Assessments 			
<p>4. I2S2 Study</p>	<ul style="list-style-type: none"> a. Participation in the trial by invited units b. Completion of data collection 			

Objective 3: PRODUCTIVITY :

Work Programme	Measurement Used	Lead	Review Date	
<p>1. Oversee the development and implementation of the network care pathways</p> <p>2. Identify potential areas for improving productivity in neonatal services and direct existing appropriate network sub groups to undertake discreet projects around these areas e.g. Newborn Examinations Effective ward rounds Admission and discharge criteria</p>	<p>a. Receive and discuss updates on progress in the development and implementation of network care pathways</p> <p>b. Care pathway exception report template developed and implemented</p> <p>c. Receive and monitor reports on care pathway exceptions and provide quarterly overview to network board</p> <p>a. Discreet projects to improve productivity undertaken by various network sub groups and reported back to the QIPP group</p>	<p>Ruth Moore</p>	<p>March 2011</p>	

Objective 4: PREVENTION – To enhance the safety of neonatal care through shared learning across the Network

Work Programme	Measurement Used	Lead	Review Date	
<p>3. To collate and review neonatal safety incidents (NSIs), recommend and disseminate the lessons learned to the stakeholders.</p> <p>4. To monitor and share learning of neonatal mortality within SSBC newborn network</p>	<p>a. Each Trust to submit an anonymised version of neonatal SIs to the SSBC Newborn Network</p> <p>b. The SIs will be brought to the QIPP group meetings to review and recommend actions to ameliorate such SIs across the Network in future</p> <p>c. To submit a quarterly Report to the Network Board on the SIs and actions recommended.</p> <p>d. To submit relevant SIs (anonymised and actions recommended) to a central agency (e.g. NPSA/BAPM) for wider dissemination.</p> <p>a. Each Trust to have a named consultant responsible for reviewing all fresh stillbirths and neonatal deaths and collating the information quarterly about each in a standard monitoring form agreed within the network</p> <p>b. Develop and agree a standards monitoring form to collate the information from each Trust</p> <p>c. Arrange biannual network mortality meetings to review the information and share learning about neonatal mortality within the network</p> <p>d. Identify areas to improve outcomes across the network and report to the network board</p>
