Hi Sarah

I am unable to send a representative due to staffing levels.

In regards to your questions

a) We have almost completed out parents information folders for the cotside. These will include information re the NNU and facilities, development of baby at different gestations and what parents can do at each stage for their baby, useful leaflets and websites, discharge information

We are also developing a second folder for the cotside which will include the parent passport, parent competencies if required and a breastfeeding log

We are currently waiting for the Trust to mount some wipe boards in each room to display parent information

We have recently spoken to a charity to seek funding for up grading the breast feeding room and chairs on the unit

b) We have the paperwork and information about the Bliss Accreditation scheme and we are currently undertaking the baseline assessments for the BLISS accreditation scheme

Regards

Dear Unit Manager

In order to be able to efficiently get through the PPI Group agenda please can you make sure that there will be a representative at the meeting from your unit. The representative will need to:

- provide a verbal update on your units Parent Experience Areas for Improvement Action Plan, if a representative is not able to attend a written update will be required prior to the meeting
- confirm whether or not your unit is registered for the BLISS Family Friendly Accreditation Scheme and if so, an update on progress/identified lead on your unit

If you need any further information or are unable to provide a representative for your unit please do let me know.

Regards
