Dear All,

We previously discussed that a number of the projects completed by nurses whilst on the foundation programme are worthy of being developed into network wide guidelines where guidelines don't currently exist. At the last education and workforce meeting we identified that these nurse would require your support to do this, (not necessarily directly but indirectly through identifying an appropriate member of your team to work with them on this).

I kept a record of the topics discussed at the last graduation event in August and the ones where the discussion identified the need for a guideline, these included;  
Music Therapy - Steph Wilson - Walsall and Rachael Cocks - Wolverhampton  
Pain Assessment Tool - Sarah Evans (the SWMMNN Pain assessment tool was mentioned during the presentation and I have attached a copy FYI)  
Skin Assessment + Tool - Nicola - Wolverhampton and Natalie - Walsall  
Cup Feeding - Rebecca

I suggest that we discuss how you can help to take this forward at the forthcoming Education and Workforce meeting on the afternoon of Tuesday 10 January.

Kind regards

Ruth
