Maternity Data

- Maternity Service Dashboards- AG has looked at all 6 maternity services dashboards (including Mid Staffs) and has put together a dashboard of all the similar items collected by each of the 6 services in SSBC. Dashboards are not for benchmarking but for looking at trends for units. Parameters need to be set that are appropriate for individual Trusts. Being able to see each other's dashboard will enable services to identify potential areas for service improvement. NB RWH has recently updated their dashboard – **ACTION; AG to contact RWH to request their updated dashboard.** The following people were identified as contacts for dashboards at each Trust:

RWH – Bernie Williams

UHNM – Sarah Jamieson and Pete Young

SaTH – Anthea Gregory Page (Anthea is arranging a similar meeting to RWH to review and update SaTH's dashboard)

Walsall – TBC

Dudley – TBC
