AHP provision report v3 1.pdf;

Hi Sarah

Please find attached AHP report, This can be shared as discussed yesterday and also the offer is there for Emma to start pulling the SSBC data together

Sarah

**Subject:** AHP provision report

Hi Sarah,

This is the most recent version of the document, although since presenting to bump we would need to take another look at the model – when the TCCR is published that may help!

I would be happy to work through what the recommendations would be for each unit in SSBC using cot numbers and dependency if that would be useful.

Below are the links to the recent staffing recommendations:

Thanks

Emma
