

WHEN A BABY DIES: BEING IN THE FRONTLINE

AIM

To provide all front line staff with the knowledge and confidence to deliver the best possible care to bereaved families.

OBJECTIVES

- To provide an awareness of the process involved in prenatal diagnosis and the planning of subsequent care
- To develop an understanding of how other care providers can assist with the bereavement process and enhance end of life care
- To have an increased understanding of the impact of baby loss
- Understand the positive role all care givers can provide in the initial period
- Develop their own knowledge and skills to facilitate informed choice for families
