

QIPP Group Objectives 2014/15 - DRAFT

Objective 1: QUALITY - To promote and enhance Quality in Neonatal (perinatal) care across the Network

Reference SSBCNN Objective No.	Work Programme	Measurement Used	Lead	Review Date	Progress Review March 2015
	Collate an annual list of all neonatal audits undertaken in the neonatal units in SSBCNMN	List of audits recorded on network website	Sarah Carnwell	Sep-14	
	Organise and hold an annual network audit competition	Results of annual audit competition reported on network website	Carol Guest	Sep-14	
	Complete an annual network wide audit - Complete a network wide audit on Term admissions to neonatal units in 2014 Complete a network audit on CABS	Report of findings from the audit discussed at QIPP group and circulated to Maternity and Neonatal Colleagues	Alison Moore Network Audit Lead	Dec-14	
	Complete a review on the use of the parent information leaflet on how neonatal services are organised in the network	Report and recommendations discussed at QIPP group and circulated to Maternity and Neonatal Colleagues	Ruth Moore	Sep-14	
	Encourage all units to participate in the second National Neonatal Parent's Experience Survey in 2014	Participation discussed and minuted in QIPP group meeting minutes	Ruth Moore	Jun-14	
	Review the findings from the second National Neonatal Parent's Experience Survey and share learning from individual unit's as well as network actions	Report and recommendations discussed and minuted in QIPP group meeting minutes	Ruth Moore	Mar-15	

Objective 2: INNOVATION - To increase participation in neonatal research studies

Reference SSBCNN Objective No.	Work Programme	Measurement Used	Lead	Review Date	Progress Review March 2015
SSBCNN 2 & 3	Work collaboratively with the Research leads in neighbouring networks to develop relevant neonatal research projects	Appropriate research studies commenced in the network and participation reported in QIPP meeting notes	Sanjeev Deshpande	Sep-14	
	Participate in the Keele Research Study "Exploration of the value created and realised in Managed Clinical Networks"	Progress discussed and minuted in QIPP group meeting notes	Ruth Moore Network Manager/ Lead Nurse	Sep-14	
	Circulate, discuss and encourage participation in appropriate local, regional, national and international research studies		Sanjeev Deshpande	Dec-14	
	Develop a service development proposal to explore "Outcomes, Health Care Needs & Health Economic Impact of Early Preterm Births(26-32 Weeks) Within the SSBCNMN"		Tilly Pillay	Jun-14	

Objective 3: PRODUCTIVITY - To monitor and develop productivity in neonatal services across the network

Reference SSBCNN Objective No.	Work Programme	Measurement Used	Lead	Review Date	Progress Review March 2015
	Monitor and report on the adherence to and impact of the network care pathways	Receive and monitor reports on care pathway exceptions and provide quarterly overview to QIPP group and network board	Ruth Moore Network Manager/ Lead Nurse	Quarterly in 2014/15	
	Identify potential areas for improving productivity in neonatal services and direct existing appropriate network sub groups to undertake discreet projects around these.	Discreet projects to improve productivity undertaken by various network sub groups and reported back to the QIPP group	Mel Sutcliffe	Dec-14	

Objective 4: PREVENTION – To enhance the safety of neonatal care through shared learning across the Network

Reference SSBCNN Objective No.	Work Programme	Measurement Used	Lead	Review Date	Progress Review March 2015
	Review learning from all serious clinical incidents in the network and collate a quarterly anonymous report to circulate to all units	Serious clinical incidents from all neonatal units reviewed with learning shared across the network is minuted in QIPP group minutes	Ruth Moore Network Manager/ Lead Nurse	Quarterly in 2014/15	
	Monitor the learning from all neonatal deaths and collate into a quarterly anonymous report to circulate to all units	SSBCNN data accurately reported in national and regional mortality reports	Babu Kumararatne Lead Clinician	Quarterly in 2014/15	
	Evaluate the pilot of the NeoNEWS charts in the network	Evaluation report discussed at QIPP group and circulated to Maternity and Neonatal Colleagues	Tilly Pillay	Sep-14	
	To review the incidence of NEC within SSBCNMN and identify strategies to reduce the incidence Ask Feeding and Nutrition group to review variation in breastfeeding rates in SSBCNMN, identify and share good practice to improve rates where necessary Identify infection rates in each NNU, identify and share good practice to reduce infection rates	Incidence of NEC reviewed at Mortality and Morbidity event Use of Probiotics discussed within the network Breastfeeding practices shared Infection control practices shared	Sanjeev Deshpande	Dec-14
