

**All staff involved in neonatal care  
with an interest in clinical data are invited to;**

**A Consultation Event  
“Developing West Midlands  
Neonatal Quality Clinical Indicators”**

**Friday 11<sup>th</sup> November 2011**

**Main Conference Room St Chad’s Court**

213 Hagley Road. Edgbaston Birmingham B16 9RG

The Newborn Networks, with the West Midlands Quality Observatory, have been developing neonatal quality clinical indicators and quality matrixes and a process for monitoring and reporting of these for use within neonatal services and newborn networks in the West Midlands. The purpose of the consultation event is to share progress to date and gain wider stakeholder involvement in agreeing the initial neonatal quality clinical indicators and process for monitoring and reporting on these across the West Midlands

The programme for the day will include presentations and group work on:

- The need for West Midlands Neonatal Quality Clinical Indicators
- National Neonatal Audit Programme
- Information Governance
- Caldicott Guardian- role and how requests for data access are processed
- Commissioning quality neonatal services and the use of data
- Enhanced Utilisation of the Badger neonatal data system

Representation is being encouraged and welcomed from each Trust/Neonatal Unit in the form of a team of individuals including Clinical Champions, Audit Leads, Badger Administrator and Information Governance. Please can names be forwarded to Sarah Carnwell at [sarah.carnwell@nhs.net](mailto:sarah.carnwell@nhs.net) or phone: 01782 672380 by the 1<sup>st</sup> November 2011.
