

Short courses
in Paediatrics and Child Health

Academic Year Programme 2018/19

Imperial College London runs a number of Masters level courses aimed at healthcare professionals who wish to develop their knowledge and skills in a broad range of areas of Paediatrics and Child Health.

Some of the courses form part of the PG Cert/Dip/MSc in Paediatrics and Child Health but can be taken as standalone CPD accredited short courses.

February Nutrition, Growth and Development of the Child (4 - 5 February)
Recognition & Management of the Seriously Ill Child (6 - 7 February)
Law and Ethics in Paediatrics (13 - 14 February)

April / May Paediatric Ventilation (29 April - 1 May)

May Serious Infection and Critical Care in Children (2 - 3 May)
Child Public Health and Social Paediatrics (20 - 21 May)

June Stabilisation and Transport of the Critically Ill Child (17 - 18 June)
Adolescent Health (19 - 20 June)
