

Short courses
in Paediatrics and Child Health

Academic Year Programme 2017/18

Imperial College London runs a number of Masters level courses aimed at healthcare professionals who wish to develop their knowledge and skills in a broad range of areas of Paediatrics and Child Health.

Some of the courses form part of the PG Cert/Dip/MSc in Paediatrics and Child Health but can be taken as standalone CPD accredited short courses.

December Paediatrics Allergy - Basic Introduction (4 - 5 December)
Infectious Diseases and Host Defence (6 - 7 December)

February *Nutrition, Growth and Development of the Child (5 - 6 February)
*Recognition & Management of the Seriously Ill Child (7 - 8 February)

April Paediatric Ventilation (23 - 25 April)
Serious Infection and Critical Care in Children (26 - 27 April)

May *Law and Ethics in Paediatrics (14 - 15 May)

July Child Public Health and Social Paediatrics (2 - 3 July)
Adolescent Health (4 - 5 July)

*Not part of the PG Cert/Dip/MSc in Paediatric and Child Health in 2017/18
