Cardiac Conditions in the Neonate Education Day

Leeds General Infirmary

Thursday 23rd January 2020, 09:00 – 16:30
Great George St, Leeds LS1 3EX

A great, free, opportunity for doctors, ANNPs and nurses from Neonatal Units across the Yorkshire & Humber to:

- Update your clinical skills – For example intubation, chest drain, preparation of prostin infusions
 - Take part in multi-disciplinary simulations
- Updates in important aspects of cardiac care in the newborn

'Excellent for nursing staff as enables us to understand and support medical staff with clinical skills like chest drains'

'Excellent day. Very informative. Thank you!'

'Great to 'get together' with other doctors and nurses to hear what they do in their units'

'The skills session gave me insight into medical roles and how I can guide and support the doctors better'
