

Plenary Session

Counselling Parents at Extremes of Viability

- At this years European Neonatal Ethics Conference hear Professor Annie Janvier speak about her experience as a neonatologist having an extremely preterm baby
- She will discuss what we should be saying to parents when discussing potential birth at extremes of viability
- What about if parents want resuscitation at 22 weeks of gestation
- What is the approach in Canada?
- What about the use of mortality and morbidity statistics?

Professor Annie Janvier
Professor of Paediatrics University of Montreal
Quebec Canada
