X3 Trauma time critical

X3 no team

2 HDU

1 PICU repatriation

X1 Out of region PICU repatriation

#### **Sept**

X4 Trauma time critical

X3 low dependency ward to ward

X1 abandoned transfer

## **Current issues at Embrace**

### Staffing

- One of the Consultants on a split role has resigned and will be leaving probably towards the end of the year.
- Two ANP trainees are reaching the completion of their training and will be starting a supervision period on the rota.
- No nursing or driver vacancies at present.
- The call handling team are under pressure at present due to long term sickness and maternity leave. Job currently out to advert.

### Premises

We are currently reviewing the premises for Embrace following several reports

- Camts /NHS England peer review/Fire/YAS

Following feedback from the reports we have had to address issue such as infection control, noise, facilities and resources. Along with the general growth and development of the service we are working on a business case for larger premises. This includes the potential co location with the operational delivery networks.
